Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This action is in response to the amendment received on 19 July 2005 in which claims 1-3 are pending.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Nageno (U.S. Patent No. 5,844,998).

Regarding claim 1, Nageno teaches a headphones comprising: at least one headphone earpiece (figure 1-5C) having a housing (3); said earpiece (1) also having a reproduction system (11-15) and ear cushions (2), the latter enclosing the ear or lying on it, a front volume (area in front 53,54) and a rear volume (area behind 53,54) being determined by the reproduction system, the front volume being essentially the volume between the reproduction system and the volume enclosed by the ear cushions and the head (area in front 53,54) and the rear volume being essentially the volume enclosed by the reproduction system (area behind 53,54); and an acoustic resistor (54) connecting the housing of the headphone earpiece and the front and the rear volumes; said acoustic resistor (54) being situated inside the housing of the headphones earpiece with respect to the front volume behind a plane which is determined by a sound outlet aperture (53) of the housing.

Art Unit: 2646

Regarding claims 2-3, Nageno teaches the acoustic resistor (54) is situated inside a channel inside the housing of the headphones earpiece next to the reproduction transducer system.

Response to Arguments

Applicant's arguments have been fully considered but they are not persuasive.

• With respect to the applicant arguments that the Nageno reference does not teach the front volume corresponds to the volume between the reproduction system and the head of the wearer, while the rear volume corresponds to the volume between the reproduction system and the housing of the headphone ear piece, the examiner disagrees. Below is Figure 1 of Nageno. As stated in the office action, the first volume is the area in front of 53, 54 which corresponds to the area enclosed by the reproduction system and the ear cushion and head (designated as B below), and the rear volume is the area enclosed by the reproduction system and housing such

Art Unit: 2646

that the acoustic resistors (53, 54) reside in channel 51. Therefore, the rejection is maintained.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
